Citing three reasons for their action, members of the Gettysburg school board at a special meeting Thursday evening at the high school adopted a resolution rejecting a town council proposal for linking South Stratton and Baltimore streets through school property.

The board action was unanimous. The resolution pointed out that the street extensions that were proposed would not only form a hazard for high school students but would interfere with plans for future development of the high school and the contemplated erection of a junior high school building. It was explained that the streets would cut through present parking areas and the girls' athletic field.

Four borough officials met with the school board to suggest that the high school entrance to Baltimore street be widened by at least 10 feet and that the widened street extend diagonally across the parking ground and girls' playing field to join an extension of South Stratton street.

**Joint Meeting Monday**

The matter was brought before the school board by Councilman Mahlon P. Hartzell and Samuel Weiser, Borough Engineer LeRoy H. Winebrenner and Solicitor Eugene V. Buleit. They said the street link-up would relieve center-town traffic congestion and provide a north-south relief route.

All members of the school board were in attendance excepting Mrs. Erma Poppy, who was out of town. President Paul M. Rohrbaugh presided at the meeting.

On Monday evening, all members of the Gettysburg Joint district boards have been called to the high school for a meeting in connection with the building program at the high school building.

With the exception of a few communities where the school children were able to act as solicitors and reach a fairly large number of people within a short time, all of the contributions were made by persons who came in themselves to aid in the cause."

## State Highway Construction Work In County Last Summer Totaled Over \$1,026,000

Road and bridge construction in Adams county during the last summer cost the state \$1,026,591.39, the members of the Gettysburg Motor club learned Thursday during the annual tour of new road construction conducted by state highway officials.

Construction of 33.85 miles of road—some of the work stabilization of roads, some of it placing of new topping and some construction of entirely new sections, cost \$983,751.38. Reconstruction of four bridges cost \$242,840.01.

Costs of construction of a mile of road runs anywhere from slightly less than \$30,000 per mile for a 14-foot road to approximately \$50,000 per mile for a 22-foot road such as was placed on the section from Hampton to Cross Keys, and about \$113,000 per mile in such construction as the McSherrytown to Bonneauville road where a stream had to be diverted, new bridges constructed and new road built in some sections.

## Heidersburg On List

State officials with the tour explained that the cost of construction for roads had jumped from about \$8,000 per mile for 14-foot roads to the present figure. Other construction costs have increased proportionately, they noted.

R. E. Eisminger, state highway department official; Eugene Henry, state highway engineer, and J. William Kendichart, Jr., county superintendent of highways, who conducted the tour, agreed with members of the tour that the Heidersburg intersection on the Harrisburg road must be changed in some fashion. They added that the project had been under consideration for some time by the state highway department.

Just how soon work can be done on the intersection was a question they could not answer, however, noting that many considerations enter the picture in road construction.

## Property Damage Involved

They noted that the large sums that must be expended for highway construction "mean that the state must do what is necessary first, and

## South Koreans Sweep Deeper Into North On Coastal Drive

By RUSSELL BRINES

Tokyo, Oct. 6 (AP)—South Korean troops swept 20 miles deeper into Red North Korea today on the Sea of Japan.

They reached and passed a point more than 75 miles above parallel 38 where the bulk of 175,000 United Nations troops were reported cooking a massive followup blow for a knockout.

The South Koreans' objective apparently was the coastal industrial city of Wonsan.

Air and naval support ranged over or stood by to join the big push against the staggering Red army now depleted by an officially estimated 200,000 casualties. Forty thousand of the casualties were counted as Red soldier prisoners of the Allies. The Red casualty estimates were announced by General MacArthur's headquarters.

## 200,000 Red Casualties

Field dispatches said South Korea's Third Division troops were approaching Tongchon, about 32 miles southeast of Wonsan. There was virtually no Red resistance.

Equipment was abandoned along the route. Red prisoners said the North Koreans had withdrawn northward in great haste for a stand in the Wonsan area. Wonsan is 90 air miles east of Pyongyang, the Communist capital.

Tongchon is more than 220 miles north of Pohang, where the Third Division began its push in mid-September. Closer aerial support for the Third, and other South Korean forces on the east coast was indicated by an announcement that the Pohang airstrip would be back in use Saturday.

As the South Koreans stabbed farther into the north, MacArthur's headquarters made its official estimate of 200,000 Communist casualties since the Reds invaded South Korea June 25.

## DEMOCRATIC RALLY STAGED HERE AT NOON

Richardson Dilworth, Democratic candidate for governor, today outlined his plans to "utilize the best brains available," if he is elected governor in November.

His first move, he said, will be to set up a commission to determine how to more efficiently operate the state government which he described as a "sprawling mass of 112 bureaus and divisions." Preliminary surveys, he said, convince him that "the state can operate just as effectively and more efficiently with from 3,000 to 6,000 fewer people on the public payroll."

## Says Fine Fears Him

He accused the Republican party of "having grown corrupt and arrogant during the more than 50 years it has been in power in Pennsylvania."

Congressman James F. Lind, candidate for re-election as congressman from the York, Adams, Franklin counties district, introduced Dilworth and paid tribute to him "as a fighting man." "As a soldier in World War I, Lind noted, 'I fought in the outfit beside the Marines in Belleaux Woods in France. I know those Marines were excellent fighters and Richardson Dilworth was one of them.'" Both Dilworth and (Continued on Page 2)

ASSISTANCE BD.  
REPORTS DROP  
IN RELIEF LOAD

Increase in the social security old age payments has resulted in a decrease in the number of cases on the county's public assistance rolls, according to a report presented Thursday night at a meeting of the county assistance board at its offices on North Washington street.

Previously, supplemental aid was given by the county board in a number of cases where the old age benefits from social security were too small to support those dependent upon them.

Give Local Figures

Increased activity in the orchards and processing plants has also removed a number of recipients from the assistance rolls, it was reported. At the present time 711 cases are listed as receiving assistance, or 95 less than the 806 recorded one year ago and 33 less than the 744 listed last month.

The case load as of October 1 was: (Continued on Page 6)

State Highway Construction  
Work In County Last Summer  
Totalled Over \$1,026,000

Road and bridge construction in Adams county during the last summer cost the state \$1,026,591.39, the members of the Gettysburg Motor club learned Thursday during the annual tour of new road construction conducted by state highway officials.

Construction of 33.65 miles of road—some of the work stabilization of roads, some of it placing of new topping and some construction of entirely new sections, cost \$983,751.38. Reconstruction of four bridges cost \$42,840.01.

Costs of construction of a mile of road runs anywhere from slightly less than \$39,000 per mile for a 14-foot road to approximately \$50,000 per mile for a 22-foot road such as was placed on the section from Hampton to Cross Keys, and about \$113,000 per mile in such construction as the McSherrystown to Bonneauville road where a stream had to be diverted, new bridges constructed and new road built in some sections.

Heidlersburg On List

State officials with the tour explained that the cost of construction for roads had jumped from about \$8,000 per mile for 14-foot roads to the present figure. Other construction costs have increased proportionately, they noted.

R. E. Eisiminger, state highway department official; Eugene Henry, state highway engineer, and J. William Kendiehart, Jr., county superintendent of highways, who conducted the tour, agreed with members of the tour that the Heidlersburg intersection on the Harrisburg road must be changed in some fashion. They added that the project had been under consideration for some time by the state highway department.

Just how soon work can be done on the intersection was a question they could not answer, however, noting that many considerations enter the picture in road construction.

**Property Damage Involved**  
They noted that the large sums that must be expended for highway construction "mean that the state must do what is necessary first, and

M. W. BIGHAM, 82,  
DIES THURSDAY

Marshall W. Bigham, 82, Gettysburg R. 2, died at his home Thursday evening at 6:45 o'clock.

Death, which Dr. C. G. Christ, Adams county coroner, said was due to a complication of diseases, followed an illness of four months.

Mr. Bigham was born and always resided in Adams county, a son of the late William M. and Sarah Margaret (Horne) Bigham. He was a farmer all of his life and for many years operated a livestock and dairy business with his late brother, Charles P. Bigham. They were recognized as having one of the finest herds of pure bred registered cattle in the state during that time.

The deceased was a life-long member of the Lower Marsh Creek Presbyterian church.

His only survivors are a number on nephews and nieces.

Funeral services from the Lower Marsh Creek church Sunday at 2:30 p.m., conducted by a nephew the Rev. Roswell P. Barnes, New York city, and Rev. Harry S. Ecker, pastor of the church. Interment in the church cemetery.

Another Case Of  
Polio In County

The third case of poliomyelitis in Adams county was reported today by State Sanitarian William I. Shields. Nancy Sipling, nine-year-old daughter of Mr. and Mrs. Samuel W. Sipling, Hanover R. 3, Berwick township, was removed to the Harrisburg hospital Thursday afternoon.

The child, one of five in the family whose ages range from four to 11 years, was taken ill Wednesday and the illness diagnosed as infantile paralysis by Dr. John C. Menges of New Oxford. The Sipling family resides in the Pigeon Hills area on the borderline of Adams and York counties. The child attended Green Springs school.

The home was quarantined Thursday night by Mr. Shields.

FIRST FROST

The temperature dipped to a chill 34 degrees this morning—only two degrees above freezing—and recorded the first frost of the season here. Last fall, the first frost here did not come until October 27, an unusually late date.

LACERATES NOSE

Joan Nary, six-year-old daughter of Mr. and Mrs. Robert Nary, 165 North Stratton street, was treated at the Warner hospital for a laceration of her nose received while playing.

Many factors thus enter into the picture before work is ordered begun.

They raised the point of property damage at the intersection and expressed the thought that the county could stand a major portion of the damages cost in connection with any relocation of the Heidlersburg intersection. To do away with present conditions at the dangerous intersection would necessitate raising the level of the present Harrisburg road south of the intersection, the removal of the high spot north of the intersection and raising the level of the road beyond the high spot at least to the bridge.

Blaine G. Walter, Biglerville, a director of the motor club, pointed out that he and many other drivers pull off the Biglerville-East Berlin road at the intersection and take advantage of driveways to the south of the intersection proper in order to give themselves a better chance while crossing the Harrisburg road. Harry Geiselman, of the Upper Adams Lions club, also a member of the tour, told the highway officials (Continued on Page 2)

JAMES E. RICE  
IS GUEST HERE

James E. Rice, the nation's first college teacher of poultry husbandry in whose honor the James E. Rice Memorial library was dedicated at the three-day NEPPCO meeting at Harrisburg, toured the Gettysburg battlefield Thursday afternoon.

He came to Gettysburg from the Harrisburg sessions to be the overnight guest of his daughter, Mrs. Daniel A. Padlock, Fairfield road. Rice's son, John V. B. Rice, Trumansburg, N. Y., ended a term as president of the Northeastern Poultry Producers Council at the Harrisburg sessions.

The Rice Memorial library, made possible by contributions of more than \$25,000 by all segments of the poultry industry is located at Cornell where Prof. Rice began his teaching career in 1890 and where he headed the poultry husbandry department more than 30 years.

In presenting the library to Cornell, W. D. Termohlen, director, U. S. Department of Agriculture's poultry branch, said: "Prof. Rice has been a light directing the poultry industry toward the objective of a sounder and more efficient business with representative organization."

Prof. Rice, now in his 86th year, came up from his retirement in Florida to participate in the ceremonies which honored him.

South Koreans  
Sweep Deeper  
Into North On  
Coastal Drive

By RUSSELL BRINES

Tokyo, Oct. 6 (AP)—South Korean troops swept 26 miles deeper into Red North Korea today on the Sea of Japan.

They reached and passed a point more than 75 miles above parallel 38 where the bulk of 175,000 United Nations troops were reported clogging a massive followup blow for a knockout.

The South Koreans' objective apparently was the coastal industrial city of Wonsan.

Air and naval support ranged over or stood by to join the big push against the staggering Red army now depleted by an officially estimated 200,000 casualties. Forty thousand of the casualties were counted as Red soldier prisoners of the Allies. The Red casualty estimates were announced by General MacArthur's headquarters.

200,000 Red Casualties

Field dispatches said South Korea's Third Division troops were approaching Tongchon, about 32 miles southeast of Wonsan. There was virtually no Red resistance.

Equipment was abandoned along the route. Red prisoners said the North Koreans had withdrawn northward in great haste for a stand in the Wonsan area. Wonsan is 90 air miles east of Pyongyang, the Communist capital.

Tongchon is more than 220 miles north of Pohang, where the Third Division began its push in mid-September. Closer aerial support for the Third and other South Korean forces on the east coast was indicated by an announcement that the Pohang airstrip would be back in use Saturday.

As the South Koreans stabbed farther into the north, MacArthur's headquarters made its official estimate of 200,000 Communist casualties since the Reds invaded South Korea June 25.

It is particularly appropriate to reprint Edgar A. Guest's

popular poem, "A Boy and His Dog," in observance of National Dog Week which celebrated throughout the nation last week.

A boy and his dog make a glorious pair:  
No better friend-ship is found anywhere.  
For they talk and they walk and they play  
And they have their deep secrets for many a day.  
And that boy has a comrade who thinks and who feels,  
Who walks down the road with a dog at his heels.

He may go where he will and his dog will be there,  
May revel in mud and his dog will not care,  
Faithful he'll stay for the slightest command  
And bark with delight at the touch of his hand.  
Oh, he owns a treasure which nobody steals,  
Who walks down the road with a dog at his heels.

No other can lure him away from his side,  
He's proud against riches and station and pride.  
Fine dress does not charm him and flattery's breath  
Is lost on the dog, but he's faithful to death;  
He sees the great soul which the body conceals  
Oh, it's great to be young with a dog at your heels!

## FOUNDATION HAS 50 MILLION TO SPEND YEARLY

WASHINGTON, Oct. 5 (P) — Suppose you had a million dollars a week to spend on your fellow man.

This was the task that confronted the trustees of the Ford Foundation two years ago.

The Ford foundation now about to begin full-scale activities, is the richest private philanthropic institution in the world. It was created by the Ford automobile family. The foundation owns Ford motor company stock and other assets valued at 233 million dollars.

For Human Welfare  
Men familiar with Ford operations say that this stock would be worth much more, if it were ever put on the market. They estimate that the foundation's assets should yield income of at least 50 million dollars a year to be used for human welfare.

The trustee, headed by Henry Ford II, appointed a committee of educators who made a lengthy study, during which they interviewed more than 1,000 leading citizens.

They said they would leave to others the continued exploration of the physical sciences, medicine, and public health, because the critical

problems of humanity are social rather than physical in character.

Bigger Grants Coming  
The Ford foundation will concentrate on human relations. "To acquire more knowledge of man and of the ways in which he can be made to live better, to be more complex, confident, and even-hungry world."

The foundation will support studies that will be conducted in all fields of human knowledge and endeavor. It will support research in the physical sciences, but only "where such research may lead to a better understanding of man and his world."

Host New Trends  
The same is true of the foundation's support of research in the physical sciences, but only "where such research may lead to a better understanding of man and his world."

Grants from foundations have helped to bring many scientific achievements to the world—for example, some of the early work on atomic energy, and the discovery of penicillin and penicillin, and the conquest of hookworm.

Now the physical sciences are being added more than ever before to the government and industrial research. And many non-profit foundations are turning to the less ex-

plained and more controversial fields of human knowledge, where government research is not permitted.

## Emmitsburg VFW ENDORSES OBER MEASURE

Memorial Post, Veterans of Foreign Wars, at its regular meeting in the post home at Emmitsburg Wednesday night, went on record in favor of the Ober law, "subversive activities act of 1949," passed by the Maryland general assembly, which will be submitted to the voters in a referendum at the general election November 7.

Post Commander Wales Rightmeyer, who presided, stressed this referendum as one of the most important matters before the citizens of the state, and urged that every citizen make a study of the law and not be misled by propaganda against it.

The "Freedom Crusade" was also explained. The liberty bell now touring the United States will be displayed in Berlin by October 24. It was pointed out, and will contain the scrolls and signatures of those now signing. Members of the post signed the scroll and additional ones were distributed for signatures.

**Plan For Armistice Day**  
Adjutant Lumen Norris gave a report on the new plan for community service awards by the National VFW headquarters. These awards will be cash instead of the former plaques and trophies, and will range upwards to as much as \$5,000. There will be two classes of awards, national and state. No single post can win both.

Five new members were received. Plans for the celebration of Armistice Day were discussed and Commander Rightmeyer announced that the VFW plans a display to be arranged in front of the post home. He requested that the bells of the entire community be tolled for five minutes beginning at 11 o'clock on November 11.

Lind served in both world wars. Dilworth alleged that his opponent "is afraid to meet me in public debate because he is afraid of taking the chance of being asked about the corruption in Luzerne county where he is the political boss."

# PHILLIES NEED MIRACLE NOW TO STOP YANKEES

By JACK HANDB

New York, Oct. 6 (AP)—Only a miracle comeback can save the hitless Phillies now as the World Series moved into cavernous Yankee stadium with New York holding a 2-0 edge. One home run blast by "the same old Joe DiMaggio" put the Phils on this desperate spot.

Not since the 1921 New York Giants, has a club won after losing the first two series games. And that was back in the days of the best-of-nine series.

Talk of "four straight" buzzes in Yankee ears with the odds 1 to 15 on the American leaguers to cop their 13th world title. Some 70,000 fans will be on hand for the Phils' first visit.

**Yanks Favored Again**  
Yankee Ed Lopat (18-8) is a 5 to 12 choice over either Ken Heintzelman (3-9) or Bob Miller (11-6) for today's third game at 1 p.m. (EST). Manager Eddie Sawyer will pick his starter in the clubhouse before batting practice.

No miracle—but only a timely base hit—was needed to rescue the Phils in the first two games when they lost 1-0 and 2-1 in 10 innings on DiMaggio's home run. Now they are fresh out of pitchers like Robin Roberts and Jim Konstanty who can be counted on to chill sluggers like the Yanks.

Sawyer has no complaints about the excellent jobs of his first two pitchers. They contained the Yankee power hitters like Yogi Berra and Johnny Mize. They put the shackles on DiMaggio until he rocketed Roberts' pitch into the upper left field seats yesterday afternoon. But this is the end of the line. Now the batters figure to cut loose.

**Has Everything But Speed**  
Lopat, a chunky lefthander with a knuckler, screwball, slider and a little bit of everything except a fast ball, may not match Vic Raschi and Allie Reynolds in effectiveness. Still, in the vast confines of the stadium, Lopat can be expected to pitch his usual steady, capable game. To succeed, he must continue to check the right-handed power of Del Ennis and Andy Seminick, strangely silent in the early games.

It could be that Sawyer already has made up his mind to pitch Miller but doesn't want the youngster to worry about the job overnight. A handsome rookie who made the big hop from Terre Haute, Ind., to the majors in one season, Miller won his first eight starts. His best pitch is a sinking fast ball. Since mid-September, the 24-year-old rookie has been troubled by a sore shoulder. In his last two starts he pitched fine ball in the early innings but weakened badly.

Heintzelman, a grey-thatched southpaw of 35 years, might have the "nothing stuff" to fool the free-swinging Yanks. He didn't win a game from May 8 to September 15 but hung up 17 victories in 1949. If Heintzelman pitches, manager Casey Stengel probably will shuffle his New York lineup to play Billy Johnson at third base instead of Brown.

**Joe Ruined Roberts**  
"We can't be any worse in the Yankee stadium, said Sawyer last night, "maybe our kids will snap out of it. We'll play our usual game and score some runs—I hope." Sawyer summed up the Phils troubles neatly when he said, "It looks like we need four bases on balls to score."

It took a bad-hop single over Coleman's head to drive in the lone Phil run of the series in the fifth inning yesterday. Time after time they left the big run on base. In the eighth and ninth, they hit into rally ending double plays.

After DiMaggio's homer they still had a chance to bounce back against Reynolds. They moved pinch hitter Jack Mayo to second base with one out in the last of the tenth. But he died on second as Richie Ashburn and Sisler failed.

DiMaggio's blow, his first series hit, ruined Roberts. The Yanks nicked the Phil 20-game winner for 10 hits. Still he staved off disaster until Stengel's "big fellow" lined his seventh World Series homer into the laps of the gaping customers.

## Mount Grid Team Host To Terrors

The Mt. St. Mary's college football team will play its first home game of the season Saturday afternoon at 2 o'clock when it clashes with an old rival, Western Maryland.

Coach John Law's Mountaineers have lost to Shippensburg State Teachers' college and Lebanon Valley, Western Maryland, favored to win the game, lost to Gettysburg in its only previous engagement.

### HANOVER WINS

The Hanover Junior High football team defeated Waynesboro 47-7 on Thursday evening at Hanover.

# Bullets Meet Drexel Tech Saturday In Philadelphia

Gettysburg college's football squad will leave this afternoon following a practice session for the Pen-Sheraton hotel, Philadelphia, where they will be quartered to-night prior to their game with Drexel Institute Saturday afternoon at 2 o'clock.

Coaches Hen Breám, Johnny Yovlesin and Jack Shalmline are anticipating quite a battle with the Dragons.

Drexel has an entire veteran team, the same which gained more ground against the Bullets last season than any other outfit. The Bullet scouts have reported very favorably on the Drexel team and warned that any "easy game" feeling is far from justified.

Last week the Dragons won an easy 26-0 victory over Ursinus and could have made the score much higher, in the opinion of the scouts.

**Expect Tough Game**  
"We feel that Drexel is a much better ball team than Western Maryland and consequently are looking for a tough game," Coach Breám said today. Eddie Allen, former Chicago Bears star and an ex-Penn back, is the new coach of Drexel. He is assisted by Tom Miller, former Philadelphia Eagles and Washington Redskins end, and Jack Hinkle, a former Eagle star.

The Bullets will be out for second straight victory after polishing

# CANNERS DOWN QUINCY 32-13 FOR 5TH WIN

The Biglerville high school football team continued to roll Thursday night as it ground out a 32-13 win over the Quincy eleven at Biglerville. This was its fifth win without a setback. Of the five scores made Thursday night, Joe Walde and Larry Lawver each scored twice, while Bud Warner contributed the other.

Quincy received the opening kickoff on their own 22 and got nowhere. On third down Bonner punted to Walde on the 40. Three straight first downs placed the ball on the 11 from where Walde raced over for the score. Rice's placement split the uprights and the score was 7-0. The following kickoff was received by Quincy on the 27. They reached the 42 before their attack bogged down and they were forced to kick.

Walde returned Bonner's kick from his own 35 to the Quincy 33. On second down Eshelman jumped on Lawver's fumble to once more give the visitors the ball. After two straight first downs, Bonner fumbled, with Slaybaugh recovering for Biglerville on the second play of the second period on the 48-yard line. The Cannners started a drive which netted three first downs and a TD. Warner driving over from the 3. The play was called back because both sides were offside, but Warner scored immediately on the next play. Rice's placement was wide.

Quincy again got no place with the kickoff and punted out of bounds on the Biglerville 42. Lawver reeled off a first down to the visitors' 40. On the next play Walde raced around right end all the way to the end zone. Again Rice's placement was wide. The Cannners made another score just before the half ended, when they received a punt on their own 37 and marched to paydirt, Lawver running around end for the last 27 yards. A pass from Rice to Howe netted the PAT.

The second half opened with Biglerville receiving the kickoff on their own 24 and marching the length of the field for their fifth and last score. This time Lawver raced the last 37 yards to the end zone. Rice's placement for the point after touchdown was blocked.

At this point Coach Russ Kane unloaded the bench to give his scrubs some experience in varsity competition. Quincy took advantage of this to score two last period TD's. Brill recovered a Kint fumble on his own 12 yard line from where the visitors drove 88 yards for their initial tally. McKinstry scored on a plunge from the 5. A pass for the extra point failed.

Quincy's second score came as the result of another sustained drive, this time for 67 yards. A pass from Bonner into the waiting arms of Smith gave the visitors a TD. Bonner's perfect placement added the 13th point, just as the game ended.

During the game the Cannners made 14 first downs to 13 for Quincy, who tried 23 passes, completing only 7. Biglerville tried only one pass, completing that one for an extra point. Each team was set back 25 yards as a result of infractions of the rules.

## Sports Roundup

By HUGH FULLERTON, JR.

New York, Oct. 6 (AP)—If you say you're second guessing the 1950 World Series, you're probably guilty of a bad pun. . . . Second is where the Phillies hoped they'd be in the second game. . . . They left five men stranded on that base because they couldn't get a hit at the right time. . . . That's where their only scoring chance died in the opener, too. . . . And it was second-baseman Mike Gollat who had the best chances to bring a runner home and failed. . . . Mike, who once hit .370 for Vandergriff, Pa., isn't doing that against Yankee pitching. . . . He fanned Wednesday with a runner on second. Yesterday he flied out to end the inning after Gran Hamner tripled, flied again behind Andy Seminick's walk and finally grounded into a double play with hammer on second. . . . But what the heck! Mike scored the Phils' only run in two days and you can't expect one guy to do everything.

### GUESSING AGAIN

The nighttime managers have found a couple of chances to criticize. . . . They argued Wednesday night that Seminick should have tried to pick Bobby Brown off third just before he scored the only opening game run. . . . Last night they were questioning Eddie Sawyer's strategy in having Dick Sisler bunt in the eighth inning. . . . Dick didn't look much like a bunter as he forced Richie Ashburn, but he hasn't looked like a hitter, either. Since he hit that homer to win the pennant.

In two games, Sisler hasn't knocked the ball past the infield—but neither had Joe DiMaggio before he belted one into the stands in the tenth inning yesterday. . . . Joe also was the target of some saloon strategists because he made a rather daring stab of Hamner's double in the ninth. The ball was headed for the spot where Hamner's triple went and if Joe had missed it, hat might have meant the ball game.

### HEARD IN THE NIGHT

Detroit Manager Red Rolfe picked up a fat bonus for finishing second with what his bosses figured was a fourth-place club. . . . Branch Rickey commuted to the Philadelphia games from his Maryland farm instead of bucking the hotel crowds.

# JR. HI ELEVEN LOSES 18-6 TO DELONE OUTFIT

The Gettysburg Junior High football team dropped its first game of the season by an 18-6 score to Delone Thursday evening at McSherrytown.

Delone tallied twice in the second period and once in the third frame. A short running play accounted for the first touchdown, a long run following a pass interception and another long jaunt on a punt return producing the other tallies.

Ronnie Williams got off on a 55-yard touchdown run for Gettysburg's lone score in the third quarter.

Coach Roger Herr was much pleased with the performance of his light and green outfit. Williams, George Penn and Bob Rohrbaugh turned in especially fine exhibitions. Participating for the local outfit were the following: Ends, Musser, Gorman, Knox; tackles, Schmitt, Myers, Faris; guards, Cook, Crouse, Anzengruber; centers, Goodermuth, Aertz; backs, Penn, Shindedecker, Williams, Rohrbaugh, Ketterman and Fox.

Next Wednesday the Junior High lads will play at Boiling Springs.

## L-TOWN DOWNS CANNER JR. HI

Coach Clair Settle's Biglerville Junior High School football team opened its season Thursday evening on the home gridiron by dropping a game to Littlestown Junior High, 12-0, in a game played as a preliminary to the varsity Quincy contest. Both of the visitors' tallies came early in the first period and were scored by Burk, the fullback. The first came as Burk intercepted a Starner pass and raced 55 yards to pay dirt, while the second was the result of an off tackle play. The Cannners never threatened seriously.

# PHILLIES NEED MIRACLE NOW TO STOP YANKEES

By JACK HAND

New York, Oct. 6 (AP)—Only a miracle comeback can save the hitless Phillies now as the World Series moved into cavernous Yankee stadium with New York holding a 2-0 edge. One home run blast by "the same old Joe DiMaggio" put the Phils on this desperate spot.

Not since the 1921 New York Giants, has a club won after losing the first two series games. And that was back in the days of the best-of-nine series.

Talk of "four straight" buzzes in Yankee ears with the odds 1 to 15 on the American leaguers to cop their 13th world title. Some 70,000 fans will be on hand for the Phils' first visit.

## Yanks Favored Again

Yankee Ed Lopat (18-8) is a 5 to 12 choice over either Ken Heintzelman (3-9) or Bob Miller (11-6) for today's third game at 1 p.m. (EST). Manager Eddie Sawyer will pick his starter in the clubhouse before batting practice.

No miracle—but only a timely base hit—was needed to rescue the Phils in the first two games when they lost 1-0 and 2-1 in 10 innings on DiMaggio's home run. Now they are fresh out of pitchers like Robin Roberts and Jim Konstanty who can be counted on to chill sluggers like the Yanks.

Sawyer has no complaints about the excellent jobs of his first two pitchers. They contained the Yankee power hitters like Yogi Berra and Johnny Mize. They put the shackles on DiMaggio until he rocketed Roberts' pitch into the upper left field seats yesterday afternoon. But this is the end of the line. Now the batters figure to cut loose.

## Has Everything But Speed

Lopat, a chunky left-hander with a knuckler, screwball, slider and a little bit of everything except a fast ball, may not match Vic Raschi and Allie Reynolds in effectiveness. Still, in the vast confines of the stadium, Lopat can be expected to pitch his usual steady, capable game. To succeed, he must continue to check the righthanded power of Del Ennis and Andy Seminick, strangely silent in the early games.

It could be that Sawyer already has made up his mind to pitch Miller but doesn't want the youngster to worry about the job overnight. A handsome rookie who made the big hop from Terre Haute, Ind., to the majors in one season, Miller won his first eight starts. His best pitch is a sinking fast ball. Since mid-September, the 24-year-old rookie has been troubled by a sore shoulder. In his last two starts he pitched fine ball in the early innings but weakened badly.

Heintzelman, a grey-thatched southpaw of 35 years, might have the "nothing stuff" to fool the free-swinging Yanks. He didn't win a game from May 8 to September 15 but hung up 17 victories in 1949. If Heintzelman pitches, manager Casey Stengel probably will shuffle his New York lineup to play Billy Johnson at third base instead of Brown.

**Joe Ruined Roberts**  
"We can't be any worse in the Yankee stadium, said Sawyer last night, "maybe our kids will snap out of it. We'll play our usual game and score some runs—I hope." Sawyer summed up the Phils' troubles neatly when he said, "It looks like we need four bases on balls to score."

It took a bad-hop single over Coleman's head to drive in the lone Phil run of the series in the fifth inning yesterday. Time after time they left the big run on base. In the eighth and ninth, they hit into rally ending double plays.

After DiMaggio's homer they still had a chance to bounce back against Reynolds. They moved pinch hitter Jack Mayo to second base with one out in the last of the tenth. But he died on second as Richie Ashburn and Sisler failed.

DiMaggio's blow, his first series hit, ruined Roberts. The Yanks nicked the Phil 20-game winner for 10 hits. Still he stayed off disaster until Stengel's "big fellow" lined his seventh World Series homer into the laps of the gaping customers.

Gettysburg college's football squad will leave this afternoon following a practice session for the Pen-Sheraton hotel, Philadelphia, where they will be quartered to-night prior to their game with Drexel Institute Saturday afternoon at 2 o'clock.

# CANNERS DOWN QUINCY 32-13 FOR 5TH WIN

The Biglerville high school football team continued to roll Thursday night as it ground out a 32-13 win over the Quincy eleven at Biglerville. This was its fifth win without a setback. Of the five scores made Thursday night, Joe Walde and Larry Warner each scored twice, while Bud Warner contributed the other.

Quincy received the opening kickoff on their own 22 and got nowhere. On third down Bonner punted to Walde on the 40. Three straight first downs placed the ball on the 11 from where Walde raced over for the score. Roe's placement split the uprights and the score was 7-0. The following kickoff was received by Quincy on the 27. They reached the 42 before their attack bogged down and they were forced to kick.

Walde returned Bonner's kick from his own 35 to the Quincy 35. On second down Eshelman jumped on Lawver's fumble to once more give the visitors the ball. After two straight first downs, Bonner fumbled, with Slaybaugh recovering for Biglerville on the second play of the second period on the 49-yard line. The Cannners started a drive which netted three first downs and a TD, Warner driving over from the 3. The play was called back because both sides were offside, but Warner scored immediately on the next play. Rice's placement was wide.

Quincy again got no place with the kickoff and punted out of bounds on the Biglerville 42. Lawver reeled off a first down to the visitors' 40. On the next play Walde raced around right end all the way to the end zone. Again Rice's placement was wide. The Cannners made another score just before the half ended, when they received a punt on their own 37 and marched to paydirt, Lawver running around end for the last 27 yards. A pass from Rice to Howe netted the PAT.

The second half opened with Biglerville receiving the kickoff on their own 24 and marching the length of the field for their fifth and last score. This time Lawver raced the last 37 yards to the end zone. Rice's placement for the point after touchdown was blocked.

At this point Coach Russ Kane unloaded the bench to give his scrubs some experience in varsity competition. Quincy took advantage of this to score two last period TD's. Brill recovered a Kint fumble on his own 12 yard line from where the visitors drove 88 yards for their initial tally. McKinstry scored on a plunge from the 5. A pass for the extra point failed.

Quincy's second score came as the result of another sustained drive, this time for 67 yards. A pass from Bonner into the waiting arms of Smith gave the visitors a TD. Bonner's perfect placement added the 13th point, just as the game ended.

During the game the Cannners made 14 first downs to 13 for Quincy, who tried 22 passes, completing only 7. Biglerville tried only one pass, completing that one for an extra point. Each team was set back 25 yards as a result of infractions of the rules.

# Sports Roundup

By HUGH FULLERTON, JR.

New York, Oct. 6 (AP)—If you say you're second guessing the 1950 World Series, you're probably guilty of a bad pun. . . . Second is where the Phillies hoped died in the second game. . . . They left five men stranded on that base because they couldn't get a hit at the right time. . . . That's where their only scoring chance died in the opener, too. . . . And it was second-baseman Mike Gollat who had the best chances to bring a runner home and failed. . . . Mike, who once hit 370 for Vandergrift, Pa., isn't doing that against Yankee pitching. . . . He fanned Wednesday with a runner on second. Yesterday he flew out to end the inning after Gran Hamner tripled, fled again behind Andy Seminick's walk and finally grounded into a double play with hammer on second. . . . But what the heck! Mike scored the Phils' only run in two days and you can't expect one guy to do everything.

## GUESSING AGAIN

The nighttime managers have found a couple of chances to criticize. . . . They argued Wednesday night that Seminick should have tried to pick Bobby Brown off third just before he scored the only opening game run. . . . Last night they were questioning Eddie Sawyer's strategy in having Dick Sisler bunt in the eighth inning. . . . Dick didn't look much like a bunter as he forced Richie Ashburn, but he hasn't looked like a hitter, either. Since he hit that homer to win the pennant. . . . In two games, Sisler hasn't knocked the ball past the infield—but neither had Joe DiMaggio before he belted one into the stands in the tenth inning yesterday. . . . Joe also was the target of some saloon strategists because he made a rather daring stab of Hamner's double in the ninth. The ball was headed for the spot where Hamner's triple went and if Joe had missed it, hat might have meant the ball game.

## HEARD IN THE NIGHT

Detroit Manager Red Rolfe picked up a fat bonus for finishing second with what his bosses figured was a fourth-place club. . . . Branch Rickey commuted to the Philadelphia games from his Maryland farm instead of bucking the hotel crowds.

Post Commander Wales Rightmire, who presided, stressed this referendum as one of the most important matters before the citizens of the state, and urged that every citizen make a study of the law and not be misled by propaganda against it.

The "Freedom Crusade" was also explained. No single post can win both.

Fifty new members were received. Plans for the celebration of Armistice Day were discussed and Commander Rightmire announced that the VFW plans a display to be arranged in front of the post home. They would be classified as "2-A (S)" and remain in that status for at least the duration of their educational training, and for four months thereafter unless they fell behind academically in the meantime or otherwise failed to justify this classification.

## Today's Talk

By GEORGE MATTHEW ADAMS

### THE JOY OF COMPANIONSHIP

We cannot live happily as solitary creatures. We must have those about us who give us mental and spiritual nourishment. John Muir, the lovable Western naturalist, lived alone in the mountains and among the glaciers, but he always had companions that he loved—every bird every flower, every animal was his friend, and he delighted in them.

Even the lost companionship of a beloved dog casts a cloud of darkness over the days of those who for long delighted in the companionship that was such a joy. As the years advance for each one of us there are those who have been our happy companions over the years that are taken from us, and we die a little.

The greatest gift that marriage gives to one is its companionship. In the Bible is told the story of companionship of David and Jonathan; and Jesus had as companions his selected disciples. And how delightful was that companionship which he had with Mary and Martha.

One of the greatest joys of a college experience is the companionship of one's classmates and the friendships created that last throughout life. A soldier could not courageously fight without his buddies about him. It was the comradeship and companionship as well as the understanding of the late Ernie Pyle that made him so beloved by every soldier contacted. He was always one of them.

Even the birds and animals like to be together. You see them in flocks and in groups. There is a beautiful line that I like to put in flowers that I send to friends. Here it is: "The very flowers that bend and meet in sweetening others, grow more sweet." And so we, by always trying to be companionable toward others, gain the joy of companionship for ourselves.

Nothing is superior to human companionship, but perhaps next to this is the companionship of books—books that were once men and women, and created by them as the substance of themselves. With good books about you, you need never be lonely or alone. They can both comfort and inspire. And they can always be near at hand.

Tomorrow Mr. Adams will talk on the subject: "Read and Reread"

### FOR THE CHILDREN

I say with the children who drop in to call:

"A home without cookies is no home at all."

I remember when I was a six-year-old lad

I dreaded to go where no cookies they had.

Though fine were the pictures and carpets and books

I thought that they must have had indolent cooks.

Such a home seemed to me like a furniture shop

Where you don't expect cookies and strawberry pop.

Now I say to the cook: "I don't care for myself

But you must keep a cookie jar filled on the shelf

And strawberry pop in a box by the wall

To be ready for children who pay us a call."

## VIENNA REDS' EFFORTS FAIL

Vienna, Austria, Oct. 6 (AP)—Communism today suffered one of its most crushing recent defeats in Europe as Austria returned to normal after two days of Red terror.

Trains were running on schedule again. Street cars operated unhindered, and 50,000 striking Reds went back to work.

Ten days of Communist efforts to foment a general strike to terrorize the country, to isolate its capital and perhaps to set up a rump government were abandoned at midnight.

The Communist leaders called off their ineffective two-day-old general strike and within minutes Red demonstrators took down barricades which yesterday closed all but one of Vienna's main rail lines and froze traffic from the capital into the Soviet zone.

The Reds gave up in the face of calm resistance by the rest of the Austrians, who since the 12th century have sat at the crossroads of the East and West and repeatedly have thrown back Eastern aggression.

The bulk of the country's laborers ignored the Communist strike call. The non-Communists courageously battled fanatic young Reds for control of factories, power plants, transport facilities and government buildings. The Reds said they called off their strike because of "Western pressure."

A purge of Red leadership was definitely in the cards as a result of the fiasco. But that was of secondary importance. More important was that Austria would safely remain the West's easternmost stronghold on the fringes of Russia's defense line in Europe.

Harrisburg, Oct. 6 (AP)—The commonwealth awarded today the first of a series of natural gas rights that turn out to be a rich source of income to the state.

The Forests and Waters department leased to three gas firms a total of 28,361 acres of state land in Cameron, Clinton and Potter counties.

For the dollar or two an acre it originally paid for the land, the state will now receive an annual rental of \$5 plus royalties ranging from 6 1/2 cents to 12 1/2 cents per thousand cubic feet of gas brought to the surface.

Gilbert, Miss Frances Gilbert, Mrs. Ross Koons and Mrs. Howard Kitzmiller.

Mrs. John Sheffer was chairman of the committee in charge of the supper.

### TELLS LIONS OF SCHOOL SYSTEM

Supervising Principal Paul E. King was guest speaker at the semi-monthly meeting of the Littlestown Lions club held Thursday evening

at the Kingsdale Fire hall. He discussed "The Littlestown Joint School System." He stated that "the jointure operates at a saving over the individual systems."

"The jointure," he said, "operates six buses, employs 39 teachers, two janitors, two doctors, one nurse, and one cafeteria supervisor."

Charles E. Tressler, teacher of shop in the Littlestown Junior-

senior high school, a member of the club, who will enter the service in the near future was presented with a gift by the club. Visitors at the meeting were Lions Johnson, Duster, Shipley and Conoway from the Westminster club.

This meeting was in charge of the education committee consisting of J. Donald Lemmon, Paul L. Holling-

er and Ralph A. White. The dinner was served by the Ladies Auxiliary of the fire company.

It was announced that District Governor Carroll E. Dull, East Prospect, will pay an official visit to the club on Thursday, November 16. The next meeting will be held October 19 in charge of the community betterment committee.

FIFTEEN YEARS AGO

Large Crowd at 40-Hour Service:  
An over-flowing congregation crowded St. Francis Xavier's Catholic church for the opening of the annual Forty Hours adoration Sunday morning at the solemn high mass at 10:30 o'clock.

The Rev. Fr. Mark E. Stock was the celebrant with seminarians from St. Mary's seminary as deacons, sub-deacons and master of ceremonies.

The Rev. Joseph F. Nangle of St. Vincent's seminary, Germantown, is conducting the services. More than one thousand communions have been served in two days at the church.

Emmitsburg Pair Wed on Saturday: Miss Pauline McClellan, daughter of Mr. and Mrs. Andrew McClellan of Emmitsburg, became the bride of Richard Rosensteel, son of Mr. and Mrs. Charles O. Rosensteel, Emmitsburg, Saturday evening in Westminster at St. John's Catholic church. They were married by the Rev. Martin P. J. Eagan, rector. Miss Mary Rosensteel was bridesmaid and Connie Constantine acted as best man.

County Couple Weds Saturday: Kenneth Benner, Gettysburg R. 1, and Miss Grace C. Study, Littlestown, were united in marriage Saturday evening at 6:30 o'clock at St. James' Reformed parsonage, Littlestown. The ceremony was performed by the Rev. Royce Schaeffer. The bridegroom is a son of Mr. and Mrs. Milton Benner. The bride is a daughter of Mr. and Mrs. Augustus Study.

Mr. Benner is proprietor of a garage located between Littlestown and Gettysburg.

J. W. Warren is Agent for Buick: The Warren Chevrolet Sales, of Gettysburg and Arendtsville, have been appointed the Buick auto representatives for Gettysburg and Adams county. J. M. Warren is the proprietor.

Dr. E. H. Markley, former Buick distributor, is now affiliated with Ira Plank in the Ford agency.

E. L. Weikert Heads S. of V.: Edward L. Weikert, Jr., was elected commander of Gettysburg camp, 112, Sons of Union Veterans at the annual election meeting at the Corporal Skelly G. A. E. rooms Friday evening. Mr. Weikert succeeds Charles Cook, who presided at the meeting.

Other officers chosen include George P. Black, senior vice commander; Henry B. Stewart, junior vice commander; J. E. Snyder, the Rev. L. B. Hafer and George A. Hughes, council; William L. Meals, Esq., secretary, and Clayton A. Myers, treasurer.

Harry Gilbert, George Slonaker, Henry B. Stewart, J. H. Felix and Clayton A. Myers, were named delegates to represent the local camp at the state encampment next June.

Young Flier on Leave Here: Glenn Jeffcoat, 25, who had been residing with Mr. and Mrs. John Black, Gettysburg R. D. 3, since he was ten years of age, and who enlisted in the United States Army air corps, has returned to his home here on leave after serving four and one-half years in Honolulu.

Reveals Secret Marriage Few Hours before Burial of His Young Wife: A 29-year-old young man stood at an open grave in Evergreen cemetery Thursday afternoon and watched the body of his bride of ten months lowered to a final resting place, a few hours after he had announced their secret marriage last Thanksgiving Day.

The young man was Warren L. Vough, son of Mr. and Mrs. L. K. Vough, of Mt. Pleasant, Pa., and his wife for ten months was the former Miss Madeline O'Dell Troxell, daughter of Mr. and Mrs. Charles W. Troxell, Buford avenue.

Mr. and Mrs. Troxell were present at the marriage ceremony. On Thursday, the former Miss Troxell developed a boil on her nose and a Connelville physician lanced it. An infection set in, followed by erysipelas. Her condition

## Today's Talk

By GEORGE MATTHEW ADAMS

### THE JOY OF COMPANIONSHIP

We cannot live happily as solitary creatures. We must have those about us who give us mental and spiritual nourishment. John Muir, the lovable Woodsman, lived alone in the mountains and among the glaciers, but he always had companions that he loved—every bird, every flower, every animal was his friend, and he delighted in them.

Even the lost companionship of a beloved dog casts a cloud of darkness over the days of those who for long delighted in the companionship that was such a joy. As the years advance for each one of us there are those who have been our happy companions over the years that are taken from us, and we die a little.

The greatest gift that marriage gives to one is its companionship. In the Bible is told the story of companionship of David and Jonathan; and Jesus had as companions his selected disciples. And how delightful was that companionship which he had with Mary and Martha.

One of the greatest joys of a college experience is the companionship of one's classmates and the friendships created that last throughout life. A soldier could not courageously fight without his buddies about him. It was the comradeship and companionship as well as the understanding of the late Ernie Pyle that made him so beloved by every soldier contacted. He was always one of them.

Even the birds and animals like to be together. You see them in flocks and in groups. There is a beautiful line that I like to put in flowers that I send to friends. Here it is: "The very flowers that bend and meet in sweetening others, grow more sweet." And so we, by always trying to be companionable toward others, gain the joy of companionship for ourselves.

Nothing is superior to human companionship, but perhaps next to this is the companionship of books—books that were once men and women, and created by them as the substance of themselves. With good books about you, you need never be lonely or alone. They can both comfort and inspire. And they can always be near at hand.

Tomorrow Mr. Adams will talk on the subject: "Read and Reread"

FOR THE CHILDREN

I say to the children who drop in to call:

"A home without cookies is no home at all."

I remember when I was a six-year-old lad.

I dreaded to go where no cookies they had.

Though fine were the pictures and carpets and books

I thought that they must have had no cookies.

Such a home seemed to me like a furniture shop

Where you don't expect cookies and strawberry pop.

Now I say to the cook: "I don't care for myself

But you must keep a cookie jar filled on the shelf

And strawberry pop in a box by the wall

To be ready for children who pay us a call."

## VIENNA REDS' EFFORTS FAIL

Vienna, Austria, Oct. 6 (AP)—Communism today suffered one of its most crushing recent defeats in Europe as Austria returned to normal after two days of Red terror.

Trains were running on schedule again. Street cars operated unhindered, and 50,000 striking Reds went back to work.

Ten days of Communist efforts to foment a general strike to terrorize the country, to isolate its capital and perhaps to set up a rump government were abandoned at midnight.

The Communist leaders called off their ineffective two-day-old general strike and within minutes Red demonstrators took down barricades which yesterday closed all but one of Vienna's main rail lines and froze traffic from the capital into the Soviet zone.

The Reds gave up in the face of calm resistance by the rest of the Austrians, who since the 12th century have sat at the crossroads of the East and West and repeatedly have thrown back Eastern aggression.

The bulk of the country's laborers ignored the Communist strike call. The non-Communists courageously battled fanatic young Reds for control of factories, power plants, transport facilities and government buildings. The Reds said they called off their strike because of "Western pressure."

A purge of Red leadership was definitely in the cards as a result of the fiasco. But that was of secondary importance. More important was that Austria would safely remain the West's easternmost stronghold on the fringes of Russia's defense line in Europe.

Harrisburg, Oct. 6 (AP)—The commonwealth awarded today the first of a series of natural gas rights that turn out to be a rich source of income to the state.

The Forests and Waters department leased to three gas firms a total of 23,361 acres of state land in Cameron, Clinton and Potter counties.

For the dollar or two an acre it originally paid for the land, the state will now receive an annual rental of \$5 plus royalties ranging from 6 1/2 cents to 12 1/2 cents per thousand cubic feet of gas brought to the surface.

Gilbert, Miss Frances Gilbert, Mrs. Ross Koons and Mrs. Howard Kitzmiller.

Mrs. John Sheffer was chairman of the committee in charge of the supper.

### TELLS LIONS OF SCHOOL SYSTEM

Supervising Principal Paul E. King was guest speaker at the semi-monthly meeting of the Littlestown Lions club held Thursday evening

at the Knolls Fire hall. He discussed "The Littlestown Joint School System." He stated that "the joint system operates at a saving over the individual systems."

"The jointure," he said, "operates six buses, employs 39 teachers, two janitors, two doctors, one nurse, and one cafeteria supervisor."

Charles E. Tressler, teacher of shop in the Littlestown Junior-

Senior high school, a member of the club, who will enter the service in the near future was presented with a gift by the club. Visitors at the meeting were Lions Johnson, Dut-

ter, Shipley and Conway from the Westminster club.

This meeting was in charge of the education committee consisting of J. Donald Lemmon, Paul L. Holling-

er and Ralph A. White. The dinner was served by the Ladies Auxiliary of the fire company.

It was announced that District Governor Carroll E. Dull, East Prospect, will pay an official visit to the club on Thursday, November 16. The next meeting will be held October 19 in charge of the community betterment committee.

## COURT TO RULE IN VOTING CASE

Pittsburgh, Oct. 6 (AP)—The Pennsylvania State Supreme court today is considering a case which will be decided whether candidates may be present in voting places on election day. The case was argued before the court as the result of a controversy in Philadelphia.

Samuel Flood, successful candidate for the Democratic nomination to represent the 13th district of Philadelphia in the state legislature, claimed he was ejected from a polling place last spring.

The Philadelphia Common Pleas court granted Flood's request that he be allowed at polling places. Later, the Philadelphia county commissioners—acting as election board members—went to the Common Pleas court and asked a contrary order.

The court ruled in favor of the Commissioners. Then the Democratic committee in Philadelphia appealed to the high court. Attorney David Berger said "the fundamental right of a candidate to be in the polling place to protect his legitimate interest is part of our organic law."

The Philadelphia Commissioners, joined by the Republican committee of Philadelphia, told the court that if candidates could be present at polling places during voting, "A score or more of them might congregate x x x and seriously interfere with the free exercise of the right of franchise to which the voters are entitled."

## ASSISTANCE BD.

(Continued from Page 1)  
Old age assistance, 496 cases; blind pension, 94; aid to dependent children, 122; and general assistance, 89. The comparable figures a year ago were 464 for old age; 101, blind pension; 147, aid to dependent children, and 94, general assistance. A month ago the figures were 423, old age; 94, blind pension; 132, aid to children, and 95, general assistance.

Due to the increased cost of living the recipients of assistance will get a "raise" starting October 21. Last April the amounts granted were lowered when a decrease in the cost of living was noted. Now the amounts will be increased approximately \$1 per person per month.

The county board renewed its membership in the Pennsylvania Welfare conference and all members expressed plans to attend an inter-county welfare meeting at McConellsburg October 18. Member Murray B. Frazee reported on a state-wide welfare conference September 14 and 15 at Harrisburg. The next meeting of the board will be held November 7.

today from 4 to 6 and from 7 to 10 p.m. Several members of the club are acting as guides during the open house hours. Miss Doud also called attention to the fact that the September membership drive is being carried over into October, for the purpose of securing possible additional memberships.

Next week's meeting will be a joint turkey dinner meeting with the Hanover Business and Professional club at the First Lutheran church, New Oxford. Reservations for this dinner must be on the bulletin board in the lobby of the local "Y" before Tuesday, October 11, at 5 p.m. Miss Doris Redding, chairman of the committee in charge of arrangements for this joint meeting, asked that all members register promptly for this dinner, the price of which is \$1.50. ## Says Public Relies On Its Newspapers

Harrisburg, Oct. 6 (AP)—The president of the Pennsylvania Newspaper Publishers' association called upon his fellow publishers on Thursday to expose the truth as never before.

Robert S. Bates, co-publisher of the Meadville Tribune newspaper, said in his president's report to the PNPA executive committee: "There is a vital need for the people to know the truth in the world today, and there is no better place for the exposition of truth than in the columns of our newspapers."

Bates said the reading public is depending more and more upon their newspapers to explain the complexities of world conditions, foreign ideologies and "our own changing economic conditions."

The executive committee met in advance of a two-day convention of the PNPA which is expected to attract 500 publishers and newspaper executives from Pennsylvania, Maryland, New Jersey and New York. The convention opened today and closes Saturday night.

Row and Mrs. Benner were received by Miss Rupp and Mrs. W. A. Corbett, respectively. The meeting closed with the recitation of the "Y" purpose by the members.

Rev. Dr. Howard R. and Margaret C. Gold

**PERSONAL COMMITMENT TO CHRIST**  
Matthew 16:24-25; Mark 1:16-20; Philippians 1:19-20.  
Memory selection: To me to live is Christ, Philippians 1:21.  
The Christian life, when appraised by human standards alone, is a costly life. It demands our time, our abilities, our money and our service to the point of sacrifice. It requires that all these be given over to the purposes God has for our lives. The lesson topic calls it a commitment to Jesus Christ. That is to say, we are to surrender our wills to Him whose will is the personified will of the Father. But that seems to conflict with our understanding that we are endowed with

certain faculties. Among them is the power to choose and decide, in brief to exercise personal will power. The poet Tennyson has sung in these lines:  
Our wills are ours, we know not how;  
Our wills are ours, to make them Thine."  
The Demands  
When the disciples were called by Jesus to follow Him they knew from the very beginning that they had to deny themselves. They became more keenly aware of this as time went on. When Jesus told them that the foxes have holes, and the birds have nests but the Son of Man has not where to lay His head, they received further intimation of what life with Jesus meant for them. But toward the end of Jesus' ministry this truth came to them more clearly. It was at that moment when their Lord told them that He must go to Jerusalem, face bitter opposition and at last meet death. It was then that Peter and others were told of the cross, and the life that is saved by being lost.  
It was about complete commitment that Jesus spoke. He demands the same today of all who are serious about Christian living. The word "cross" had a terrifying meaning. Death upon the cross was not only extremely painful but also degrading. For such a death, it need be,

his followers should be prepared. And as the history of the early Church attests it was the lives committed to the "Jesus Way," regardless of what the cost might be, that laid the foundation of the Church.  
Enlisting Helpers  
Mark's account of how Jesus recruited men for his training school and for service is not elaborated. It seemed that Jesus, walking along the shores of the Sea of Galilee and seeing men busy at their fishing, as if by chance called them to be "fishers of men." We may well believe that He had heard of these men, perhaps knew them personally. (Continued on Page 8)

*At the heart of ANY town*

At the heart of any town . . . at the center of any city . . . along the lanes of any rural settlement . . . wherever men live and labor and search for happiness—there you will find the Church.

It has always been so since the time of Christ—even in the days when men paid with their lives for being Christians . . . when cellars were chapels, and catacombs were hiding-places for the faithful.

So deeply has the Church imprinted its truth upon the life of our country that none—not even the man who tries to live without religion—can visualize an America without the marks of Christianity. Our heritage of freedom, our dream of peace, all of our treasured blessings and sacred hopes were born of the teachings of our Church, of the faith of our fathers.

Attend, join, support some church. Your spiritual riches can never be taken from you; they can be lost ONLY THROUGH NEGLECT.

**THE CHURCH FOR ALL . . . ALL FOR THE CHURCH**

The Church is the greatest factor on earth for the building of character and good citizenship. It is a storehouse of spiritual values. Without a strong Church, neither democracy nor civilization can survive. There are four sound reasons why every person should attend services regularly and support the Church. They are: (1) For his own sake. (2) For his children's sake. (3) For the sake of his community and nation. (4) For the sake of the Church itself, which needs his moral and material support. Plan to go to church regularly and read your Bible daily.

## Sunday School Lesson

Rev. Dr. Howard R. and Margaret C. Gold

### PERSONAL COMMITMENT TO CHRIST

Matthew 16:24-25; Mark 1:16-20; Philippians 1:19-26.

Memory selection: To me to live is Christ, Philippians 1-21.

The Christian life, when appraised by human standards alone, is a costly life. It demands our time, our abilities, our money and our

service to the point of sacrifice. It requires that all these be given over to the purposes God has for our lives. The lesson topic calls it a commitment to Jesus Christ. That is to say, we are to surrender our wills to Him whose will is the personified will of the Father. But that seems to conflict with our understanding that we are endowed with

certain faculties. Among them is the power to choose and decide, in brief to exercise personal will power. The poet Tennyson has sung in these lines:

"Our wills are ours, we know not how;  
Our wills are ours, to make them  
Thine."

#### The Demands

When the disciples were called by Jesus to follow Him they knew from the very beginning that they had to deny themselves. They became more keenly aware of this as time went on. When Jesus told them that the foxes have holes and the birds have nests but the Son of Man has not where to lay His head, they re-

ceived further intimation of what life with Jesus meant for them. But toward the end of Jesus' ministry this truth came to them more clearly. It was at that moment when their Lord told them that He must go to Jerusalem, face bitter opposition and at last meet death. It was then that Peter and others were told of the cross, and the life that is saved by being lost.

It was about complete commitment that Jesus spoke. He demands the same today of all who are serious about Christian living. The word "cross" had a terrifying meaning. Death upon the cross was not only extremely painful but also degrading. For such a death, if need be,

his followers should be prepared. And as the history of the early Church attests it was the lives committed to the "Jesus Way," regardless of what the cost might be, that laid the foundation of the Church.

#### Enlisting Helpers

Mark's account of how Jesus recruited men for his training school and for service is not elaborated. It seemed that Jesus, walking along the shores of the Sea of Galilee and seeing men busy at their fishing, as if by chance called them to be "fishers of men." We may well believe that He had heard of these men, perhaps knew them personally.

## At the heart of ANY town

At the heart of any town . . . at the center of any city . . . along the lanes of any rural settlement . . . wherever men live and labor and search for happiness—there you will find the Church.

It has always been so since the time of Christ—even in the days when men paid with their lives for being Christians . . . when cellars were chapels, and catacombs were hiding-places for the faithful.

So deeply has the Church imprinted its truth upon the life of our country that none—not even the man who tries to live without religion—can visualize an America without the marks of Christianity. Our heritage of freedom, our dream of peace, all of our treasured blessings and sacred hopes were born of the teachings of our Church, of the faith of our fathers.

Attend, join, support some church. Your spiritual riches can never be taken from you; they can be lost ONLY THROUGH NEGLECT.

### THE CHURCH FOR ALL . . . ALL FOR THE CHURCH

The Church is the greatest factor on earth for the building of character and good citizenship. It is a storehouse of spiritual values. Without a strong Church, neither democracy nor civilization can survive. There are four sound reasons why every person should attend services regularly and support the Church. They are: (1) For his own sake. (2) For his children's sake. (3) For the sake of his community and nation. (4) For the sake of the Church itself, which needs his moral and material support. Plan to go to church regularly and read your Bible daily.

# COURT TO RULE IN VOTING CASE

Pittsburgh, Oct. 6 (AP)—The Pennsylvania State Supreme court today is considering a case which will be decided whether candidates may be present in voting places on election day. The case was argued before the court as the result of a controversy in Philadelphia.

Samuel Flood, successful candidate for the Democratic nomination to represent the 13th district of Philadelphia in the state legislature, claimed he was ejected from a polling place last spring.

The Philadelphia Common Pleas court granted Flood's request that he be allowed at polling places. Later, the Philadelphia county commissioners—acting as election board members—went to the Common Pleas court and asked a contrary order.

The court ruled in favor of the commissioners. Then the Democratic committee in Philadelphia appealed to the high court. Attorney David Berger said "the fundamental right of a candidate to be in the polling place to protect his legitimate interest is part of our organic law."

The Philadelphia Commissioners, joined by the Republican committee of Philadelphia, told the court that if candidates could be present at polling places during voting, "A score of more of them might congregate x x x and seriously interfere with the free exercise of the right of franchise to which the voters are entitled."

# ASSISTANCE BD.

(Continued from Page 1)  
Old age assistance, 406 cases; blind pension, 94; aid to dependent children, 124; and general assistance, 89. The comparable figures a year less than the 806 recorded one year ago were 464 for old age; 101, blind pension; 147, aid to dependent children, and 94, general assistance. A month ago the figures were 423, old age; 94, blind pension; 132, aid to children, and 95, general assistance.

Due to the increased cost of living the recipients of assistance will get a "raise" starting October 21. Last April the amounts granted were lowered when a decrease in the cost of living was noted. Now the amounts will be increased approximately \$1 per person per month.

The county board renewed its membership in the Pennsylvania Welfare conference and all members expressed plans to attend an inter-county welfare meeting at McConellsburg October 18. Member Murray B. Frazer reported on a state-wide welfare conference September 14 and 15 at Harrisburg. The next meeting of the board will be held November 7.

## Says Public Relies On Its Newspapers

Harrisburg, Oct. 6 (AP)—The president of the Pennsylvania Newspaper Publishers' association called upon his fellow publishers on Thursday to expose the truth as never before.

Robert S. Bates, co-publisher of the Meadville Tribune newspaper, said in his president's report to the PNPA executive committee: "There is a vital need for the people to know the truth in the world today, and there is no better place for the exposition of truth than in the columns of our newspapers."

Bates said the reading public is depending more and more upon their newspapers to explain the complexities of world conditions, foreign ideologies and "our own changing economic conditions."

The executive committee met in advance of a two-day convention of the PNPA which is expected to attract 500 publishers and newspaper executives from Pennsylvania, Maryland, New Jersey and New York. The convention opened today and closes Saturday night.

Row and Mrs. Benner were received by Miss Rupp and Mrs. W. A. Corbett, respectively. The meeting closed with the recitation of the "Y" purpose by the members.

# REARMAMENT TO MOVE AHEAD

Washington, Oct. 6 (AP)—An early end of the Korean war may make a difference in how the United States deploys its military force but leave unchanged the program for building that force up to a 3,000,000-man strength.

All evidence today pointed to continuation of the rearmament program, including more manpower, even if the shooting in the Far East stops soon. Plans reportedly were under serious consideration to boost the air force up from 95 to 110 groups.

President Truman said last week there must be no let-up in the defense program. High military officials since then have told Congress the program was planned before hostilities started in Korea and that the war triggered it.

Moreover, Pentagon spokesmen said today that as far as they knew the calling up of reserves and draftees would go ahead without change, whatever happens in Korea. But cessation of the Korean war would help solve an especially thorny problem for the army. Under the Western European defense project the United States is committed to augmenting its forces there. The

army has been faced with the dilemma of finding troops for this purpose, while at the same time meeting the heavy demands of the Korean war. It now has only ten divisions, of which six are in Korea and one in Germany.

To date, army thinking has been along the line that a start on augmenting the European force could be made in one of two ways: by sending a National Guard division (of which five are now being brought into federal service) or by sending a "cadre" division.

## FORECASTS ON U.S. POPULATION SHARPLY UPSET

Washington, Oct. 6 (AP)—Until recently, it was widely accepted that the population of the United States would reach its peak during the second half of the 20th century and then start slowly downward.

That conception has been jolted almost out of existence. Some experts now put the peak in the early 21st century. Others challenge the idea that we will necessarily reach a peak at any time. All are approaching the subject with new caution and humility.

The thing that did the jolting was the astonishing upsurge of the population during the last ten years—a decade that surely deserves to be called the fertile forties.

**Slowest In Thirties** "Astounding" is not too strong a word for what happened. Since 1880 our rate of growth had been gradually dropping. We grew vastly—31 million in 1880, 76 million in 1900, 122 million in 1930—but the percentage of increase went down and down. Until 1880 the population had swelled by more than 30 per cent every decade. By the 1920's this had fallen to 16 per cent. The birth rate steadily declined. Families got smaller. Immigration was choked off.

Anybody could see where the slowing rate or growth would eventually lead us, if it continued. In the sterile thirties the population gained only 7 per cent. This was by far the slowest rate of increase for a ten-year period in American history. The numerical rise was only 9 million, the smallest since the 1860's when the total population was only one-fourth as big.

**The Fertile Forties** Then came those fertile forties. The population gained 19 million, surpassing 150,000,000 in the 1950 census. Numerically the rise beat

all previous decades. The rate of increase was 14 per cent, not much in the light of the country's pre-1930 history, but twice as high as the rate of the 1930's.

One of the biggest surprises had to do with the war. In most previous wars, the birth rate had gone down (the French-Prussian war of 1870 was one exception). But in World War II, the birth rate soared.

**Revising Forecasts** War psychology may have helped this trend (for example, many couples had babies sooner than they might have, because the father was going away to war). But the war apparently wasn't the main cause of the rising birth rate, because it had started to go up even in the thirties, and it stayed high after the war ended.

Professional students of population (called "demographers") spent a bewildering decade, revising their forecasts only to have the revisions out-dated before publication.

The latest Census Bureau forecast, published August 10, is extremely conservative. It runs only to 1960 and has an unusually wide range of alternatives. Like earlier forecasts, it gives three sets of figures, "high," "medium," and "low," based on different assumptions as to births, deaths, and immigration.

For 1960, the "high" estimate of U. S. population is 180,000,000, "the medium" estimate 169,000,000, the "low" estimate 161,000,000.

## Sunday School Lesson

(Continued from Page 7)

and was convinced that they had the personal qualifications that could be molded into the kind of lives his Kingdom-building required.

But we like the simplicity of the account: "Come ye after me... straightway they left their nets" are all phrases that have become familiar and they are significant.

No deferment was requested although several of the men had a share in the fishing industry. Others had interests of no mean importance. They left what appeared to be a growing business that assured a good living. They soon found that life with the Master was, humbly speaking, a bit precarious. But they soon learned to like it. It became their constant joy. Through their ready and consistent devotion to Jesus and His cause they gave us our best heritage.

A warm-hearted letter from Paul is cited to illustrate the rewards that come to a man who has committed himself wholly to his Lord. He writes to friends from his prison cell in Rome. He does not bemoan his probable fate. "Whether by life or death" he is determined to magnify Christ. And he did. The ablest exponent and defender of the true faith was this preacher who had spread Christianity almost across the Roman Empire and now lay awaiting his sentence. He never ceased writing encouraging letters to his younger pastors and their congregations.

## Three Things

Personal commitment to Christ requires three things. First, a complete surrender to the will and way of Christ. If one knows the true joy of discipleship he must be ready "to go all the way." No half

way measures will bring the necessary results. Again, one must surrender his mind to the Master's mind. Jesus said, "Learn of Me." Self-dedication is not enough. That must be followed by a study of the incomparable life of Jesus and the way He brought men into the Kingdom. There is a third requirement. It is to do something, to act, undertake and achieve. By submitting to God's will we will learn more of Christ's sacred teaching: "If any man will do his will, he shall know more of the doctrine."

**Questions On The S. S. Lesson**  
1. What does being a Christian require?

2. What is personal commitment to Christ?  
3. How do we learn to submit?  
4. Why does Jesus enlist helpers?  
5. What 3 things does this commitment require?

## Answers

1. Sacrifice.  
2. Surrendering our wills to Christ.  
3. By experiencing the demands of discipleship.  
4. To help establish the Kingdom on earth.

PERHAPS you've noticed that there seem to be a lot of these brawny beauties running around on America's highways—and it isn't just that boldly gleaming forefront that spreads this impression.

It isn't just the fact that folks who own a Buick get such a bang out of it that they do a lot of driving.

Back of all this is another fact. It's a fact that contains a broad hint to anyone who'd like to know what's what in motorcar buys. 1950 Buicks are breaking all past popularity records, as registered in sales.

So we suggest that you do some personal investigating.

Find out, for example, how masterful you feel, with Fireball power purring away the miles, at a polite touch of your toe on the gas treadle.

Find out how the jolts and jars seem to disappear, when you have big soft coil springs on all four wheels, and fat low-pressure tires on wide Safety-Ride rims.

Then there's Dynaflo Drive\* which Buick owners vote the biggest automotive hit that has come along in years.

FORECASTS ON U.S. POPULATION SHARPLY UPSET

Washington, Oct. 6 (AP)—Until recently, it was widely accepted that the population of the United States would reach its peak during the second half of the 20th century and then start slowly downward.

That conception has been jolted almost out of existence.

Some experts now put the peak in the early 21st century. Others challenge the idea that we will necessarily reach a peak at any time. All are approaching the subject with new caution and humility.

The thing that did the jolting was the astonishing upsurge of the population during the last few years—a decade that surely deserves to be called the fertile forties.

Slowest in Thirties "Astonishing" is not too strong a word for what happened.

Since 1860 our rate of growth had been gradually dropping. We grew vastly—31 million in 1860, 78 million in 1900, 122 million in 1930—but the percentage of increase went down and down. Until 1860 the population had swelled by more than 30 percent every decade. By the 1920's this had fallen to 16 percent. The birth rate steadily declined. Families got smaller. Immigration was choked off.

Anybody could see where the slowing rate of growth would eventually lead us, if it continued.

In the sterile thirties the population gained only 7 percent. This was by far the slowest rate of increase for a ten-year period in American history. The numerical rise was only 9 million, the smallest since the 1860's when the total population was only one-fourth as big.

The Fertile Forties Then came those fertile forties. The population gained 19 million, surpassing 150,000,000 in the 1950 census. Numerically the rise beat

all previous decades. The rate of increase was 14 percent, not much in the light of the country's pre-1930 history, but twice as high as the rate of the 1930's.

One of the biggest surprises had to do with the war. In most previous wars, the birth rate had gone down (the French-Prussian war of 1870 was one exception). But in World War II, the birth rate soared.

Revising Forecasts. War psychology may have helped this trend (for example, many couples had babies sooner than they might have, because the father was going away to war). But the war apparently wasn't the main cause of the rising birth rate, because it had started to go up even in the thirties, and it stayed high after the war ended.

Professional students of population (called "demographers") spent a bewildering decade, revising their forecasts only to have the revisions out-dated before publication.

The latest Census Bureau forecast, published August 10, is extremely conservative. It runs only to 1960 and has an unusually wide range of alternatives. Like earlier forecasts, it gives three sets of figures, "high," "medium," and "low," based on different assumptions as to births, deaths, and immigration.

For 1960, the "high" estimate of U. S. population is 180,000,000, "the medium" estimate 169,000,000, the "low" estimate 161,000,000.

Sunday School Lesson

and was convinced that they had the personal qualifications that could be molded into the kind of lives his Kingdom-building required.

But we like the simplicity of the account: "Come ye after me . . . straightway they left their nets" are all phrases that have become familiar and they are significant.

No deferment was requested although several of the men had a share in the fishing industry. Others had interests of no mean importance. They left what appeared to be a growing business that assured a good living. They soon found that life with the Master was, humbly speaking, a bit precarious. But they soon learned to like it. It became their constant joy. Through their ready and consistent devotion to Jesus and His cause they gave us our best heritage.

A warm-hearted letter from Paul is cited to illustrate the rewards that come to a man who has committed himself wholly to his Lord. He writes to friends from his prison cell in Rome. He does not bemoan his probable fate. "Whether by life or death" he is determined to magnify Christ. And he did. The ablest exponent and defender of the true faith was this preacher who had spread Christianity almost across the Roman Empire and now lay awaiting his sentence. He never ceased writing encouraging letters to his younger pastors and their congregations.

Three Things

Personal commitment to Christ requires three things. First, a complete surrender to the will and way of Christ. If one would know the true joy of discipleship he must be ready "to go all the way." No half

way measures will bring the necessary results. Again, one must surrender his mind to the Master's mind. Jesus said, "Learn of Me." Self-dedication is not enough. That must be followed by a study of the incomparable life of Jesus and the way He brought men into the Kingdom. There is a third requirement. It is to do something, to act, undertake and achieve. By submitting to God's will we will learn more of Christ's sacred teaching: "If any man will do his will, he shall know more of the doctrine."

Questions On The S. S. Lesson

1. What does being a Christian require?
2. What is personal commitment to Christ?
3. How do we learn to submit?
4. Why does Jesus enlist helpers?
5. What 3 things does this commitment require?

- Answers
1. Sacrifice
  2. Surrendering our wills to Christ.
  3. By experiencing the demands of discipleship
  4. To help establish the Kingdom on earth.

# TRUMAN LEADS WITH CABINET APPOINTMENTS

By MAX HALL  
Washington, Oct. 6 (AP)—Harry Truman has had more cabinet members than any other President.  
During his five and a half years in the White House, 30 different persons have served in his cabinet at one time or another. U. S. Grant had 24, Franklin D. Roosevelt 24, Theodore Roosevelt 23, and John Tyler 20.

Those figures may be misleading unless you realize that Presidents Truman, Theodore Roosevelt, and Tyler each inherited one whole cabinet of someone else's choosing. To illustrate: When Mr. Truman took office after F. D. R.'s death, he found a 10-member cabinet already

there, and he has brought in only 20 new men since that time. And F. D. R., of course, served longer than any other President, so his normal turnover would be higher.

**Grew By Custom**  
Actually he has made 22 appointments. He named George C. Marshall twice—as secretary of state in 1947 and as secretary of defense last month. And he named James Forrestal as secretary of defense in 1947 after inheriting him as secretary of the navy.

Mr. Truman has removed some cabinet members who weren't in harmony with him. He has shifted a couple to other jobs. Some have resigned because of ill health or other personal reasons. One died in office.

The cabinet is an interesting institution in American history. It grew up by custom, rather than by law. The constitution says nothing about a cabinet. George Washington started it in 1789 when he began calling in department heads as his advisers. The word

"cabinet" began to be applied to these meetings in about 1793. As a group the cabinet is only advisory. But the members, as department heads, must be confirmed by the Senate.

**Reduced In 1947**  
The Senate has rarely rejected a nomination. One such case was in 1925, when the Senate twice rejected President Coolidge's nomination of Charles B. Warren as attorney general because of his previous relations with the sugar trust.

At first the cabinet had only four or five members. As new departments were created, it grew to seven by 1849, and to ten by 1913. The members then were the secretaries of state, treasury, war, navy, interior, agriculture, commerce, and labor, and the attorney general and postmaster general.

In 1947 the number was reduced to nine when the job of secretary of defense was created and he became the only representative of the armed services in the cabinet. Last year Congress raised cabinet salaries from \$15,000 to \$22,500 a year.

**Nine Became Presidents**  
The cabinet member who served longer than anyone else in American history was James Wilson, who was born in Scotland. He was secretary of agriculture for 16 years, from 1897 to 1913, under Presidents McKinley, Theodore Roosevelt, and Taft.

Harold L. Ickes had the second longest cabinet career, serving as secretary of the interior for nearly 13 years. He was brought into the job by Franklin D. Roosevelt on March 4, 1933, and was ushered out by President Truman on February 15, 1946.

Nine cabinet members later became President. Jefferson, Madison, Monroe, John Quincy Adams, Van Buren, and Buchanan all made the State department a stepping stone to the White House. Presidents Grant and Taft had been secretary of war, and President Hoover had been secretary of commerce.

# EISENHOWER IS INAUGURATED

State College, Pa., Oct. 6 (AP)—Dr. Milton S. Eisenhower was inaugurated Thursday as the eleventh president of the Pennsylvania State college, accepting "the privilege of dedicating myself to the service of the people of the Commonwealth."  
"I trust that, with the help of faculty, students, alumni and friends of the college, I may redeem my responsibilities," Dr. Eisenhower said in his inaugural address as head of the 95-year-old land grant college.  
More than 15,000 onlookers watched the solemn ceremony in Beaver field—a ceremony that formalized the July 1 appointment of the 51-year-old Kansan. He formerly was president of Kansas State college.

General Dwight D. Eisenhower, president of Columbia university and supreme Allied commander in World War II, sat on the rostrum as an honored guest to watch his brother's inauguration. Two other brothers also watched the ceremony.

Dr. Eisenhower, in his inauguration speech, urged a strong United States as "the greatest guarantee of peace and freedom in the world today." To education he laid the task of informing the people of the nature of democracy working in the interests of peace.

# Would Reorganize Pa. Health Program

Harrisburg, Oct. 6 (AP)—A reorganization of Pennsylvania's health, welfare and correctional programs has been pledged by Democrat Richardson Dilworth and Republican John S. Fine.

Pledges from the rival candidates for Governor came in statements released yesterday by the Pennsylvania Citizens Association for Health and Welfare, a private organization.

In his announcement of the statements, association President, Owen B. Rhoads, commented: "It is indeed gratifying to know that both Judge Fine and Mr. Dilworth recognize the weaknesses of our present system in public health, child welfare, corrections and related programs with special reference to the need for a merit system and reorganization of our state machinery to do the job."
